Workshop Description

Succeeding with Lean Six Sigma™ is a 2-day fast paced workshop that demonstrates how business leaders can strengthen their organization and expand their leadership success through Lean Six Sigma.

Designed for business leaders within an organization thinking about or already deploying Lean Six Sigma, this workshop equips business leaders for continued success in a new environment.

Learning Methods

- Experienced instructors will express concepts, tools and techniques; and facilitate group discussion.
- Every Mastery Experience Workshop™ features an iPad-based simulation designed to deepen learning by immersing participants in dozens of situations relevant to the subject matter. The simulation provides a rich multi-media experience designed to increase the levels of learning and give participants an experience to build on.
- Working in teams, participants put concepts, tools and techniques to use through practical exercises within the context of the simulation.
