Workshop Description
The Challenge Continues® is designed to move leaders beyond the foundational Leadership Challenge knowledge they have acquired previously.

The Challenge Continues® asks participants to practice specific skills and behaviors based on their leadership accomplishments to date, and their outstanding goals.

Additionally, participants move beyond self-development and expand their use of The 5 Practices to develop their team members and to influence the broader spheres of their work units and organizations.

Participants will leave with an enhanced personal leadership development plan, and with increased motivation and new skills to develop others.
